

LYRICS

ЛЪРІКС

I have one Universal karaoke Heart
It sings my life in a movie soundtrack
And everytime I Want to start
One song always brings me back

TheY saY Jonah, he Was sWalloWed bY a Whale

But I know, he Was sWalloWed bY a song.
You can believe it s just one tale , one biG tail.

As You keep singing Your life along.

And everytime it rains It rains lyrics from heaven

And You know each heart countains Love songs from heaven.

You can always go through life catching colds and missing trains
Stuck in a place over the rainbow Whether it s sunny or it rains.

But You ll just feel almost blue
like a tiger in the Zoo.

You ll just feel almost blue

Or You can just change the tune
On a **Sunday** afternoon
Finally finding that You belong
To another different **song**

When blue birds fly all over the place
Maybe I'll look at Your real face
And I Won't go back to the past
Cause heart and art Will meet **at last.**
